Changes in Project Officials must be submitted in writing from the CEO

^{*} Failure to meet project schedule may result in termination of agreement for approved projects. Modification of dates must be requested in writing by the CEO of record and approved by the commission once the Project Agreement has been executed. The project schedule should be planned around receiving a Project Agreement on or about July 1st.

6.0 ATTACHMENTS/COMPLETENESS REVIEW:

Confirm in the blocks [] below that each item listed is attached.

- X A certified copy of the legislation by the governing body of the applicant authorizing a designated official to sign and submit this application and execute contracts. This individual should sign under 7.0, Applicant Certification, below.
- X A certification signed by the applicant's chief financial officer stating all local share funds required for the project will be available on or before the dates listed in the Project Schedule section. If the application involves a request for loan (RLP or SCIP), a certification signed by the CFO which identifies a specific revenue source for repaying the loan also must be attached. Both certifications can be accomplished in the same letter.
- [] A cooperation agreement (if the project involves more than one subdivision or district) which identifies the fiscal and administrative responsibilities of each participant.
- \mathbf{X} A registered professional engineer's detailed cost estimate and useful life statement, as required in 164-1-13, 164-1-14, and 164-1-16 of the Ohio Administrative Code. Estimates shall contain an engineer's original seal or stamp and signature. subdivision or district) which identifies the fiscal and administrative responsibilities of each participant.
- X Projects which include new and expansion components and potentially affect productive farmland should include a statement evaluating the potential impact. If there is a potential impact, the Governor's Executive Order 98-VII and the OPWC Farmland Preservation Review Advisory apply.
- Capital Improvements Report: (Required by O.R.C. Chapter 164.06 on standard form) X
- XSupporting Documentation: Materials such as additional project description, photographs, economic impact (temporary and/or full time jobs likely to be created as a result of the project), accident reports, impact on school zones, and other information to assist your district committee in ranking your project. Be sure to include supplements which may be required by your local District Public Works Integrating Committee.

7.0 APPLICANT CERTIFICATION:

The undersigned certifies that: (1) he/she is legally authorized to request and accept financial assistance from the Ohio Public Works Commission; (2) to the best of his/her knowledge and belief, all representations that are part of this application are true and correct; (3) all official documents and commitments of the applicant that are part of this application have been duly authorized by the governing body of the applicant; and, (4) should the requested financial assistance be provided, that in the execution of this project, the applicant will comply with all assurances required by Ohio Law, including those involving Buy Ohio and prevailing wages.

Applicant certifies that physical construction on the project as defined in the application has NOT begun, and will not begin until a Project Agreement on this project has been executed with the Ohio Public Works Commission. Action to the contrary will result in termination of the agreement and withdrawal of Ohio Public Works Commission funding of the project.

ORDINANCE 2006-13

AN ORDINANCE AMENDING SECTIONS 880.03, 880.04, 880.06, AND 880.15 OF THE CITY OF READING CODIFIED ORDINANCES (ORDINANCE 93-01 ENACTED JANUARY 5, 1993, AS AMENDED IN 2003-127 EFFECTIVE JANUARY 1, 2004) INCREASING THE RATE OF TAX ON EARNED INCOME FROM ONE AND ONE-HALF PERCENT (1 1/2%) TO TWO PERCENT (2%) EFFECTIVE FOR THE TAX YEAR ENDING DECEMBER 31, 2006, AND ALL SUBSEQUENT TAX YEARS. THE TWO PERCENT TAX ON EARNED INCOME SHALL BE DIVIDED AND ALLOCATED AS FOLLOWS: ONE AND NINE-TENTHS PERCENT (1 9/10 %) SHALL BE PLACED IN THE GENERAL FUND OF THE CITY OF READING, OHIO TO BE USED FOR ANY PURPOSE PERMITTED BY LAW; AND, ONE TENTH OF ONE PERCENT (1/10%) SHALL BE PLACED IN FUND TO BE ESTABLISHED BY THE CITY TO BE USED SOLELY FOR THE PURPOSES OF ROADWAY AND STREET CONSTRUCTION, RE-PAVING, AND REPAIR.

Be it ordained by the Council of the City of Reading, Ohio:

Section I:

Sections 880.03, 880.04, 880.06, and 880.15 of the City of Reading Codified Ordinances, as enacted January 5, 1993 (Ordinance 93-01 as amended in 2003-127 effective January 1, 2004), are hereby amended to increase the tax on earned income imposed by Chapter 880 of the Codified Ordinances from one and on-half percent (1 ½%) to two percent (2%) effective for the tax year ending December 31, 2006 and all subsequent tax years. The above sections, as previously amended, are attached hereto as an exhibit and incorporated herein.

Section II:

The two percent tax on earned income shall be divided and allocated as follows: One and nine-tenths percent (1 9/10 %) shall be placed in the General Fund of the City of Reading, Ohio to be used for any purpose permitted by law; and, one-tenth of one percent (1/10%) shall be placed in fund to be established by the City to be used solely for the purposes of roadway and street construction, re-paving, and repair.

Section III:

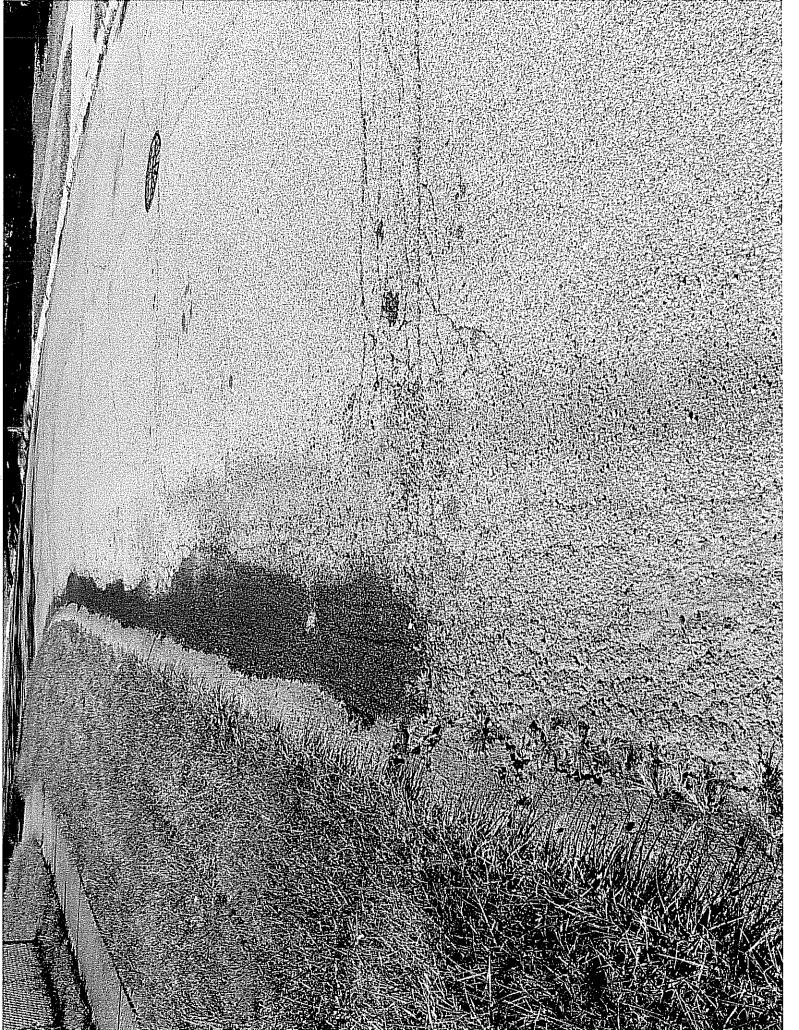

Pursuant to Section 718.01 of the Ohio Revised Code, this Ordinance shall not take effect unless and until it has been submitted to the electors of the City of Reading, Ohio and has obtained the approval of a majority of the electors voting on the question at a general, primary, or special election

electors v	oting on the question at a general, primary, or special election.

ADDITIONAL SUPPORT INFORMATION

For Program Year 2009 (July 1, 2009 through June 30, 2010), jurisdictions shall provide the following support information to help determine which projects will be funded. Information on this form must be accurate, and where called for, based on sound engineering principles. Documentation to substantiate the individual items, as noted, is required. The applicant should also use the rating system and its' addendum as a guide. The examples listed in this addendum are not a complete list, but only a small sampling of situations that may be relevant to a given project. IF YOU ARE APPLYING FOR A GRANT, WILL YOU BE WILLING TO ACCEPT A LOAN IF ASKED BY
THE DISTRICT? YES X NO (ANSWER REQUIRED) Note: Answering "Yes" will not increase your score and answering "NO" will not decrease your score.
1) What is the physical condition of the existing infrastructure that is to be replaced or repaired?
Give a statement of the nature of the deficient conditions of the present facility exclusive of capacity, serviceability, health and/or safety issues. If known, give the approximate age of the infrastructure to be replaced, repaired, or expanded. Use documentation (if possible) to support your statement. Documentation may include (but is not limited to): ODOT BR86 reports, pavement management condition reports, televised underground system reports, age inventory reports, maintenance records, etc., and will only be considered if included in the original application. The existing pavement is 25 years old and the surface is 25 years old. Potholes, base failures, deteriorated curb
are numerous throughout the entire length of this project. The condition of the existing curb is such that the
entire curb needs to be reconstructed. Extensive full depth repairs will need to be made. The entire roadway will
be overlayed.
2) How important is the project to the safety of the Public and the citizens of the District and/or service area?
Give a statement of the projects effect on the safety of the service area. The design of the project is intended to reduce existing accident rate, promote safer conditions, and reduce the danger of risk, liability or injury. (Typical examples may include the effects of the completed project on accident rates, emergency response time, fire protection, and highway capacity.) Please be specific and provide documentation if necessary to substantiate the data. The applicant must demonstrate the type of problems that exist, the frequency and severity of the problems and the method of correction. No Effect
Tio Breet
Tio Breet
3) How important is the project to the health of the Public and the citizens of the District and/or service area?
3) How important is the project to the health of the Public and the citizens of the District and/or service area? Give a statement of the projects effect on the health of the service area. The design of the project will improve the overall condition of the facility so as to reduce or eliminate potential for disease, or correct concerns regarding the environmental health of the area. (Typical examples may include the effects of the completed project by improving or adding storm drainage or sanitary facilities, replacing lead jointed water lines, etc.). Please be specific and provide documentation if necessary to substantiate the data. The applicant must demonstrate the type of problems that exist, the frequency and severity of the problems and the method of correction.

4) Does the project help meet the infrastructure repair and replacement needs of the applying jurisdiction?
The applying agency must submit a listing in priority order of the projects for which it is applying. Points will be awarded on the basis of most to least importance. Priority 1 North & South Kathwood
Priority 2 Mechanic & Market Street Box Culvert
Priority 3
Priority 4
Priority 5
5) To what extent will the user fee funded agency be participating in the funding of the project?
(example: rates for water or sewer, frontage assessments, etc.).
No participation - Zero (0) %
6) Economic Growth – How will the completed project enhance economic growth Give a statement of the projects effect on economic growth (be specific). The project will not have a significant impact on economic growth.
7) Matching Funds - <u>LOCAL</u>
The information regarding local matching funds is to be filed by the applicant in Section 1.2 (b) of the Ohio Public Works Association's "Application For Financial Assistance" form.
8) Matching Funds - <u>OTHER</u>
The information regarding local matching funds is to be filed by the applicant in Section 1.2 (c) of the Ohio Public Works Association's "Application For Financial Assistance" form. If MRF funds are being used for matching funds, the MRF application must have been filed by Friday, August 29, 2008 for this project with the Hamilton County Engineer's Office. List below all "other" funding the source(s). Local funding is utilized for matching funds for this project.

SCIP/LTIP PROGRAM ROUND 23 - PROGRAM YEAR 2009 PROJECT SELECTION CRITERIA JULY 1, 2009 TO JUNE 30, 2010

NAME OF APPLICANT: READING	
NAME OF PROJECT: NORTHY SOUTH KATHWOOD	
RATING TEAM:	

General Statement for Rating Criteria

Points awarded for all items will be based on engineering experience, field verification, application information and other information supplied by the applying agency, which is deemed to be relevant by the Support Staff. The examples listed in this addendum are not a complete list, but only a small sampling of situations that may be relevant to a given project.

CIRCLE THE APPROPRIATE RATING

1) What is the physical condition of the existing infrastructure that is to be replaced or repaired?

25 - Failed	MINOR	1-11/1	MEDTH

Appeal Score

23 - Critical

20 - Very Poor

17 - Poor

15- Moderately Poor

10 - Moderately Fair

5 - Fair Condition

0 - Good or Better

Criterion 1 - Condition

Condition of the particular infrastructure to be repaired, reconstructed or replaced shall be a measure of the degree of reduction in condition from its original state. Historic pavement management data based on ASTM D6433-99 rating system may be submitted as documentation. Capacity, serviceability, safety and health shall not be considered in this criterion. Any documentation the Applicant wishes to be considered must be included in the application package.

Definitions:

Failed Condition - requires complete reconstruction where no part of the existing facility is salvageable. (E.g. Roads: complete reconstruction of roadway, curbs and base; Bridges: complete removal and replacement of bridge; Underground: removal and replacement of an underground drainage or water system.

Critical Condition - requires partial reconstruction to maintain integrity. (E.g. Roads: reconstruction of roadway/curbs can be saved; Bridges: removal and replacement of bridge with abutment modification; Underground: removal and replacement of part of an underground drainage or water system.

Yery Poor Condition - requires extensive rehabilitation to maintain integrity. (E.g. Roads: extensive full depth, partial depth and curb repair of a roadway with a structural overlay; Bridges: superstructure replacement; Underground: repair of joints and/or replacement of pipe sections.

Poor Condition - requires standard rehabilitation to maintain integrity. (E.g. Roads: moderate full depth, partial depth and curb repair to a roadway with no structural overlay needed or structural overlay with minor repairs to a roadway needed; Bridges: extensive patching of substructure and replacement of deck; Underground: insituform or other in ground repairs.

Moderately Poor Condition - requires minor rehabilitation to maintain integrity. (E.g. Roads: minor full depth, partial depth or curb repairs to a roadway with either a thin overlay or no overlay needed; Bridges: major structural patching and/or major deck repair.

Moderately Fair Condition - requires extensive maintenance to maintain integrity. (E.g. Roads: thin or no overlay with extensive crack sealing, minor partial depth and/or slurry or rejuvenation; Bridges: minor structural patching, deck repair, erosion control.)

Fair Condition - requires routine maintenance to maintain integrity. (E.g. Roads: slurry seal, rejuvenation or routine crack sealing to the roadway; Bridges: minor structural patching.)

Good or Better Condition - little to no maintenance required to maintain integrity.

 \underline{Note} : If the infrastructure is in "good" or better condition, it will \underline{NOT} be considered for SCIP/LTIP funding unless it is an expansion project that will improve serviceability.

How important is the project to the <u>safety</u> of the Public and the citizens of the District and/or service	e area?
25 - Highly significant importance 20 - Considerably significant importance 15 - Moderate importance 10 - Minimal importance 5 - Poorly documented importance O - No measurable impact	Appeal Score
Criterion 2 – Safety The applying agency shall include in its application the type of deficiency that currently exists and how improve the situation. For example, have there been vehicular accidents attributable to the problems injuries or fatalities? In the case of water systems, are existing hydrants non-functional? In the case of capacity inadequate to provide volumes or pressure for adequate fire protection? In all cases, specific of Mentioned problems, which are poorly documented, generally will not receive more than 5 points.	cited? Have they involved of water lines, is the present
Note: Each project is looked at on an individual basis to determine if any aspects of this category apply. NOT intended to be exclusive.	Examples given above are
How important is the project to the health of the Public and the citizens of the District and/or service	e area?
25 - Highly significant importance 20 - Considerably significant importance 15 - Moderate importance 10 - Minimal importance 5 - Poorly documented importance	Appeal Score
Criterion 3 – Health The applying agency shall include in its application the type, frequency, and severity of the health problem reduced by the intended project. For example, can the problem be eliminated only by the project, or we satisfactory? If basement flooding has occurred, was it storm water or sanitary flow? What complaints case of underground improvements, how will they improve health if they are storm sewers? How would improve health or reduce health risk? In all cases, quantified documentation is required. Mentioned documented, generally will not receive more than 5 points.	ould routine maintenance be if any are recorded? In the ld improved sanitary sewers
Note: Each project is looked at on an individual basis to determine if any aspects of this category apply. are NOT intended to be exclusive.	Examples given above
Does the project help meet the infrastructure repair and replacement needs of the applying agency? Note: Applying agency's priority listing (part of the Additional Support Information) must be filed with applica-	tion(s).
First priority project 20 - Second priority project 15 -Third priority project 10 - Fourth priority project 5 - Fifth priority project or lower	Appeal Score

Criterion 4 - Jurisdiction's Priority Listing

2)

3)

The applying agency **must** submit a listing in priority order of the projects for which it is applying. Points will be awarded on the basis of most to least importance. The form is included in the Additional Support Information.

5)	To what extent will a user fee funded agency be	participating in the funding of the project?
	10 Less than 10%	
	9 – 10% to 19.99%	
	8 – 20% to 29.99%	Appeal Score
	7 – 30% to 39.99%	
	6 – 40% to 49.99%	
	5 – 50% to 59.99%	
	4 – 60% to 69.99%	
	3 – 70% to 79.99%	
	2 – 80% to 89.99%	
	1 – 90% to 95%	
	0 - Above 05%	

Criterion 5 - User Fee-funded Agency Participation

To what extent will a user fee funded agency be participating in the funding of the project? (Example: rates for water or sewer, frontage assessments, etc.). The applying agency must submit documentation.

6) Economic Growth – How the completed project will enhance economic growth (See definitions).

10 - The project will directly secure new employment	Appeal Score
5 – The project will permit more development	
①- The project will not impact development	

Criterion 6 - Economic Growth

Will the completed project enhance economic growth and/or development in the service area?

Definitions:

Secure new employment: The project as designed will secure development/employers, which will immediately add new permanent employees to the invisition: The applying agency must submit details.

Permit more development: The project as designed will permit additional business development/employment. The applying agency must supply details.

The project will not impact development: The project will have no impact on business development.

Note: Each project is looked at on an individual basis to determine if any aspects of this category apply.

7) Matching Funds - LOCAL

10 - This project is a loan or credit enhancement

10 - 1 ms project is a foan or credit enhancement

10 - 50% or higher
8 - 40% to 49.99%
6 - 30% to 39.99%
4 - 20% to 29.99%
2 - 10% to 19.99%
0 - Less than 10%

Criterion 7 - Matching Funds - Local

The percentage of matching funds which come directly from the budget of the applying agency. Ten points shall be awarded if a loan request is at least 50% of the total project cost. (If the applying agency is not a user fee funded agency, any funds to be provided by a user fee generating agency will be considered "Matching Funds – Other").

Matching Funds – <u>OTHER</u>	List total percentage of "Other" funds%
10 – 50% or higher	List below each funding source and percentage
8 – 40% to 49.99%	%
6-30% to 39.99%	<u> </u>
4 – 20% to 29.99%	<u></u>
2 – 10% to 19.99%	<u> </u>
1 – 1% to 9.99%	
O-Less than 1%	

Criterion 8 - Matching Funds - Other

The percentage of matching funds that come from funding sources other than those mentioned in Criterion 7. A letter from the outside funding agency stating their financial participation in the project and the amount of funding is required to receive points. For MRF, a copy of the current application form filed with the Hamilton County Engineer's Office meets the requirement.

9) Will the project alleviate serious capacity problems or hazards or respond to the future level of service needs of the district?

10 - Project design is for future demand.	Appeal Score
8 - Project design is for partial future demand.	• •
6 - Project design is for current demand.	
4 - Project design is for minimal increase in capacity.	
79- Project design is for no increase in capacity.	

Criterion 9 - Alleviate Capacity Problems

The applying agency shall provide a narrative, along with pertinent support documentation, which describe the existing deficiencies and showing how congestion will be reduced or eliminated and how service will be improved to meet the needs of any expected growth or development. A formal capacity analysis must accompany the application to receive more than 4 points. Projected traffic or demand should be calculated as follows:

Formula:

Existing volume x design year factor = projected volume

<u>Design Year</u>	Design year factor			
	<u>Urban</u>	Suburban	Rural	
20	1.40	1.70	1.60	
10	1.20	1.35	1.30	

Definitions:

Future demand – Project will eliminate existing congestion or deficiencies and will provide sufficient capacity or service for twenty-year projected demand or fully developed area conditions. Justification must be supplied if the area is already largely developed or undevelopable and thus the projection factors used deviate from the above table.

<u>Partial future demand</u> – Project will eliminate existing congestion or deficiencies and will provide sufficient capacity or service for ten-year projected demand or partially developed area conditions. Justification must be supplied if the area is already largely developed or undevelopable and thus the projection factors used deviate from the above table.

Current demand - Project will eliminate existing congestion or deficiencies and will provide sufficient capacity or service only for existing demand and conditions.

Minimal increase – Project will reduce but not eliminate existing congestion or deficiencies and will provide a minimal but less than sufficient increase in existing capacity or service for existing demand and conditions.

No increase – Project will have no effect on existing congestion or deficiencies and provide no increase in capacity or service for existing demand and conditions.

10) Readiness to Proceed - If SCIP/LTIP funds are granted, when would the construction contract be awarded?

(5). Will be under contract by December 31, 2009 and no delinquent projects in Rounds 20 & 21

 $\widetilde{ extbf{3}}$ - Will be under contract by March 31, 2010 and/or one delinquent project in Rounds 20 & 21

0 - Will not be under contract by March 31, 2010 and/or more than one delinquent project in Rounds 20 & 21

Criterion 10 - Readiness to Proceed

The Support Staff will assign points based on engineering experience and status of design plans. A project is considered delinquent when it has not received a notice to proceed within the time stated on the original application and no time extension has been granted by the OPWC. An applying agency receiving approval for a project and subsequently canceling the same after the bid date on the application will receive zero (0) points under this round and the following round.

Appeal Score

11) Does the infrastructure have regional impact? Consider origination and destination of traffic, functional classifications, size of service area, and number of jurisdictions served, etc.

10 – Major Impact	
8 – Significant Impact	

6 – Moderate Impact

4 – Minor Impact

22 Minimal or No Impact

Criterion 11 - Regional Impact

The regional significance of the infrastructure that is being repaired or replaced.

Definitions:

Major Impact - Roads: Major Arterial: A direct connector to an Interstate Highway; Arterials are intended to provide a greater degree of mobility rather than land access. Arterials generally convey large traffic volumes for distances greater than one mile. A major arterial is a highway that is of regional importance and is intended to serve beyond the county. It may connect urban centers with one another and/or with outlying communities and employment or shopping centers. A major arterial is intended primarily to serve through traffic.

Significant Impact - Roads: Minor Arterial: A roadway, also serving through traffic, that is similar in function to a major arterial, but operates with lower traffic volumes, serves trips of shorter distances (but still greater than one mile), and may provide a higher degree of property access than do major arterials.

Moderate Impact - Roads: Major Collector: A roadway that provides for traffic movement between local roads/streets and arterials or community-wide activity centers and carries moderate traffic volumes over moderate distances (generally less than one mile). Major collectors may also provide direct access to abutting properties, such as regional shopping centers, large industrial parks, major subdivisions and community-wide recreational facilities, but typically not individual residences. Most major collectors are also county roads and are therefore through streets.

Minor Impact - Roads: Minor Collector: A roadway similar in functions to a major collector but which carries lower traffic volumes over shorter distances and has a higher degree of property access. Minor collectors may serve as main circulation streets within large, residential neighborhoods. Most minor collectors are also township roads and streets and may, or may not, be through streets.

Minimal or No Impact. - Roads: Local: A roadway that is primarily intended to provide access to abutting properties. It tends to accommodate lower traffic volumes, serves short trips (generally within neighborhoods), and provides connections preferably only to collector streets rather than arterials.

12)	What is the overall economic health of the jurisdiction?				
	10 Points				
	8 Points				
	(b)Points				
	4 Points				
	2 Points				
	Criterion 12 – Economic Health The District 2 Integrating Committee predetermines the apply may periodically be adjusted when census and other budgetar	ring agency's economic health. The economic health of a jurisdiction y data are updated.			
13)	Has any formal action by a federal, state, or local government agency resulted in a partial or complete ban of the usage or expansion of the usage for the involved infrastructure?				
	10 - Complete ban, facility closed	Appeal Seems			
	8 – 80% reduction in legal load or 4-wheeled vehic	Appeal Score			
	7 – Moratorium on future development, <i>not</i> function				
	6 – 60% reduction in legal load				
	5 - Moratorium on future development, functionin	g for current demand			
	4 – 40% reduction in legal load	•			
	2 – 20% reduction in legal load				
	(0)– Less than 20% reduction in legal load				
	Criterion 13 - Ban The applying agency shall provide documentation to show that a facility ban or moratorium has been formally placed. The ban or moratorium must have been caused by a structural or operational problem. Points will only be awarded if the end result of the project will cause the ban to be lifted.				
14)	What is the total number of existing daily users that will benefit as a result of the proposed project?				
	10 - 30,000 or more	Appeal Score			
	8 - 21,000 to 29,999	pp			
	6 - 12,000 to 20,999				
	4 - 3,000 to 11,999
